

Safe • Compact • Affordable

PIRANHA II

Tungsten Electrode Grinder

Made in the U.S.A.

*Dedicated Tungsten Grinder for
Continuous Grinding of .040" to 3/32" (1.0mm-2.4mm)*

The New Piranha II Features:

- Sliding dust shield for 100% dust containment
- Integrated receptacle area for ease of handling electrodes
- Recessed handle for better form & function
- On/off switch with LED light for improved display of unit operation
- Lightened chassis for reduced weight
- Signature blue powdercoat

Safety

Enclosed grinding area captures Tungsten dust for easy disposal.

Weld Quality

20 Ra surface finish improves Tungsten life, arc starting, arc stability and produces consistent weld penetration.

Productivity

Correctly and consistently Diamond grind Tungsten Electrodes longitudinally, in less than 30 seconds.

Value

The PIRANHA II Diamond grinds, flats and notches your Tungsten economically.

PIRANHA II

Tungsten Electrode Grinder

Features

- Easy set up, optimal consistency and near-perfect repeatability.
- Compact, durable and solid design with no vibration.
- Longitudinal 20 RA grinding for maximum arc starting, arc stability, electrode life and weld penetration.
- Universal collet arm for 3 electrode sizes - .040" (1.0mm), 1/16" (1.6mm), 3/32" (2.4mm) – with no equipment changes.
- Included angle scale for angles from 10° - 60°
- Precision tip flat gauge & depth adjustment stop ensures exact Tungsten points every time – enabling consistent, repeatable arc performance and welding output.
- Dust shield & Containment baffle to keep dust inside the grinder housing, for safety and easy disposal.
- Tip flat block for square end grinding and removing bad tips.
- Electrode notching station for simple cut-off.
- Double-sided grinding wheel for maximum wheel life and value.
- Detailed Manual with valuable engineering data and welding recommendations.
- Integrated receptacle for electrode storage/access
- Recessed carry handle for better form and function

Additional Products

DGP-KIT-PIIs Piranha II Collet Upgrade Kit

Get the performance of the new Piranha tungsten grinders without having to buy a new grinder! Our new Piranha II collet upgrade kit can be used on your older model Piranha tungsten grinder to enable you to grind tungsten as short as .75" (19.05mm). The process and directions are simple.

Full feature Precision Tungsten Grinders: These high precision, heavy duty grinders provide additional features for improved grinding accuracy and can precisely cut electrodes to length.

CNC Pre-Ground Electrodes: Eliminates operator grinding variables. The quality and consistency of CNC Pre-Ground Electrodes improve arc starting and arc stability. They offer consistent weld penetration and longer electrode life. Tungsten shedding and associated weld inclusions have been virtually eliminated.

- Piranha III - Compact/Precision Tungsten Grinder .040" - 3/16" (1.0 - 4.8mm)
- DGP-2 - Full feature Tungsten grinder that grinds, flats and cuts Tungsten.
- Pre Ground Electrodes - CNC manufactured, high tolerance electrodes for Orbital and Automatic Tig and Plasma welding.
- Premium Tungsten - Thoriated, Lanthanated, Ceriated, Zirconiated, Tri-Mix™-WS2, Cryo-T, Pure & specialty materials.

Specifications

Range of Included Angle:	10° - 60°
Electrode Diameters:	.040 (1.0mm), 1/16" (1.6mm), 3/32" (2.4mm)
Minimum Electrode Length:	1.75" (44.5mm)
Voltage:	110/220 VAC, 50/60Hz
Power Consumption:	40 Watts
Motor:	2,500 rpm, .5 amps
Length:	7.750" (196.85mm)
Width:	4.750" (120.65 mm)
Height:	6.000" (152.4 mm)
Weight:	10 lbs (4.54 kg)

Benefits

- **Safety:** Enclosed grinding area captures Tungsten dust for easy disposal.
- **Weld Quality:** 20 Ra surface finish improves Tungsten life, arc starting, arc stability and produces consistent weld penetration.
- **Productivity:** Longitudinally Diamond grind your Tungsten electrode in less than 30 seconds correctly and consistently.
- **Value:** The PIRANHA II Diamond grinds, flats and notches your Tungsten economically.
